POS-2L+

POS-2L+ is FM monitor via web browser. Design to fast connection and completely microprocessor-controlled easy to program from the computer, all main parameters can be read on the internet display. This product can be accessed locally with a user provided laptop, smart phone and remotely using the internet, It easy to set up and read all parameter. They are designed to be contained in a 19" rack of 1U.

Technical Specifications

Connections

Input Serial interface	2xDB9 male RS232
Output Serial interface	2xDB9 female RS232
Support	LAN 10/100 Mbit Ethernet
Remote	TCP/IP RJ-45
AC Input connector	3 Pin (Max Load 30A@220VAC)
AC Output connector	3 Pin (Max Load 30A@220VAC)

General

Type	Telemetry
Temperature operating range	0 – 50 °C
AC power requirement	200 – 260 Vac
Power consumption (typical)	100 VA (typ. 0.5A@230 Vac)
Dimension	1U, 485x44x200 mm (WxHxD)
Weight	2 kg.

Standard interface
